

At childcare site, child or staff member develops any one of the following signs or symptoms:

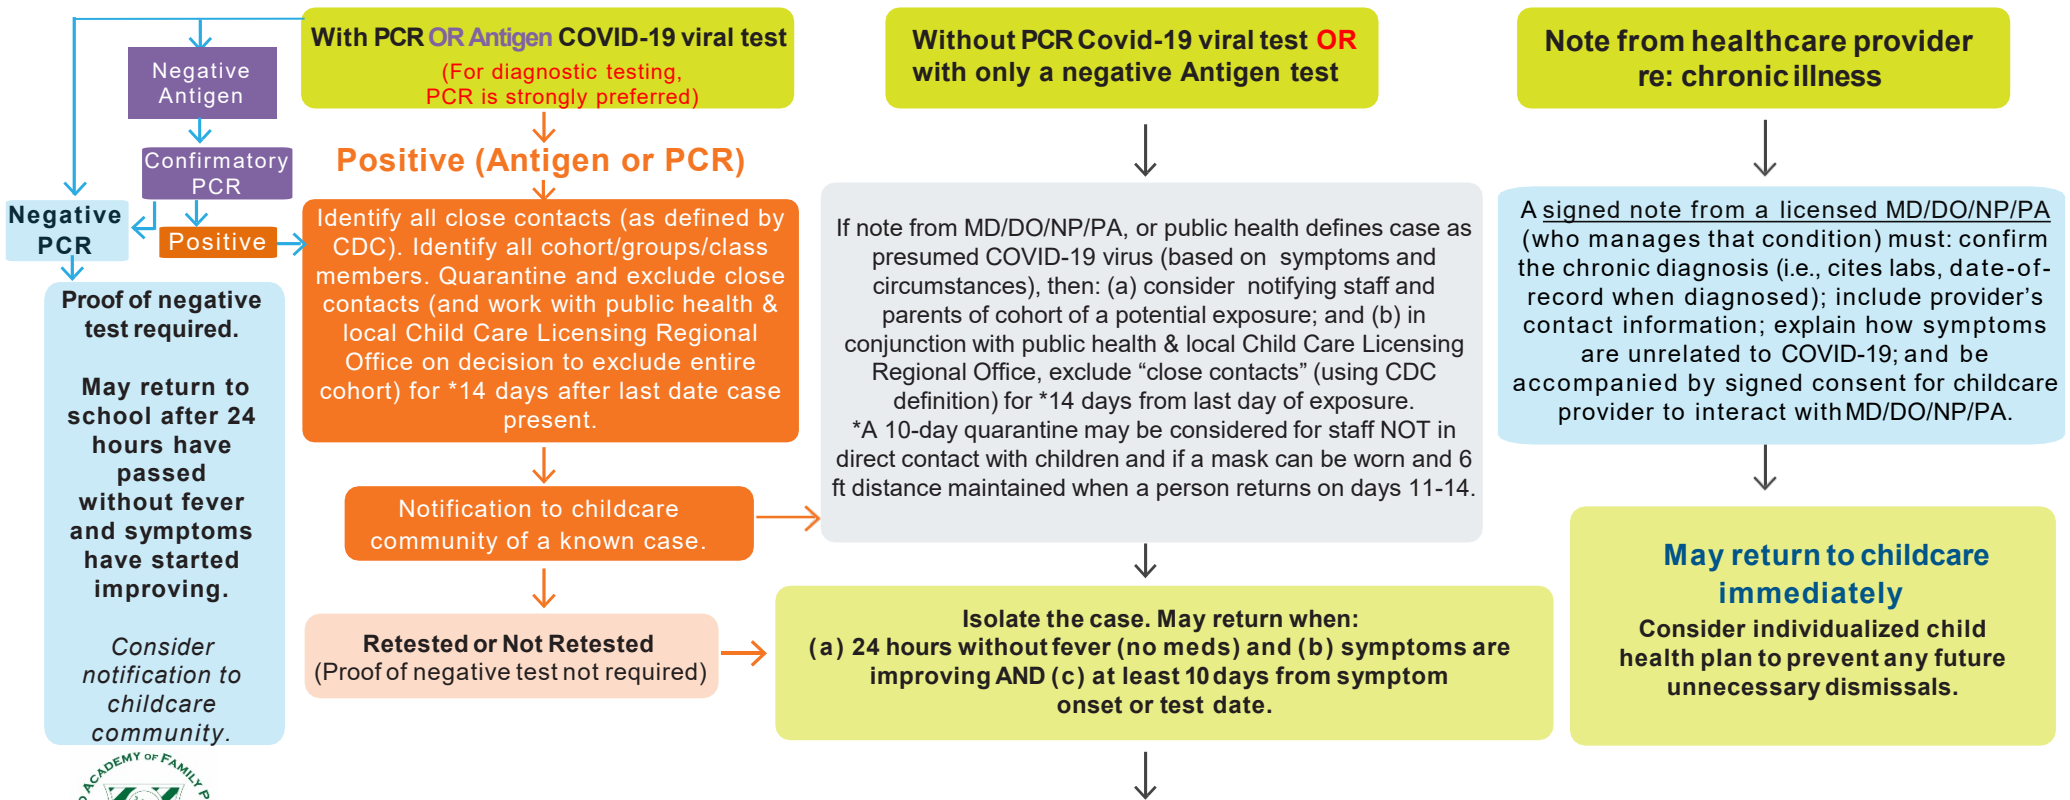

- Fever with or without chills/rigors (fever defined as $T > 100.0$ that does not resolve within 30 min. without medication)
- Cough* Shortness of breath Nasal congestion/rhinorrhea (runny nose)* Sore throat
- Nausea, vomiting, or diarrhea* Fatigue* New loss of taste/smell Headache*
- Muscle or body aches* Poor feeding or poor appetite*

* Disregard this symptom if childcare staff/personnel already aware of a chronic, pre-existing condition that causes the symptom. The nature of the presenting symptom (e.g., duration, intensity) must be consistent with the underlying chronic condition.

ACTION: Apply appropriate PPE; isolate child/staff member until sent home; recommend they contact health care provider for instructions/testing. Note: Other infections can cause similar symptoms (e.g., flu, strep) *but these do not rule out COVID-19 as co-occurring.*

CHILD / STAFF TO STAY HOME UNTIL...

If childcare provider becomes aware of one case in one cohort/class/group, then have childcare administrator fill out the [COVID-19 Online Notification Form](#) & call the local Child Care Licensing Regional Office at (619) 767-2200 to report the case for further directions on quarantine. For questions on reporting, outbreaks, or general questions, please call the COVID-Epi Schools line at (619) 692-8636, leave a message and your call will be returned.

Vaccination Status**

Fully vaccinated people can:

- Spend time with other fully vaccinated people, including indoors, without wearing masks or physical distancing (outside a workplace setting).
- Spend time with unvaccinated people from a single household who are at low risk for severe COVID-19 disease indoors without wearing masks or physical distancing.
- Refrain from wearing face coverings outdoors except when attending crowded outdoor events, such as live performances, parades, fairs, festivals, sports events, or other similar settings.
- Refrain from quarantine and testing following a known exposure if asymptomatic.
 - Following a known exposure at work, fully vaccinated workers do not need to quarantine if asymptomatic.
 - In the workplace, employers subject to the Cal/OSHA COVID-19 Prevention Emergency Temporary Standards (ETS) must ensure that employees are following the current ETS face covering and testing requirements.

***People are considered fully vaccinated: 2 weeks after their second dose in a 2-dose series (E.G. Pfizer or Moderna) OR 2 weeks after a single-dose vaccine (E.G. Johnson & Johnson).*
